***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

**Chapter 1:
General characteristics of the year. The external conditions.**

Solar Return Ascendant Libra :

Your social life will flourish this year. Your attitude will be more open and agreeable, bringing new people into your life and also strengthening old friendships. You will prefer to be with others rather than being alone. You will meet people who will play an important part in your future. There is a possibility of beginning a significant professional or business relationship that could lead to a deep romantic tie later on. If you are single, you may establish a relationship that could turn into a committed partnership in the future. If you are already in a relationship, you will feel inclined to share many activities with your partner and could work on joint projects together. If you are seriously involved with someone, this may be the year you make the big commitment! In any case, this year should bring you the affection you yearn for.

Your artistic inspirations and a need for harmony in your environment will be emphasized. Most of the time you will find it easier to be diplomatic and agreeable when dealing with others. If by nature you have a strong and more aggressive temperament, you will tend to be more agreeable than usual during this period. But if you tend to be generally more easy-going and passive, this year you will need to guard against being too easy and agreeable. You will also lean toward physical ease and comfort. Your decision-making abilities may not be functioning as well as usual.

You could be plagued by doubt and more than once confronted with the difficult task of choosing between two or more options. You will find yourself listening to the opinions and suggestions of others, not able to decide. Your need for balance and fairness won't allow you to take lightly the decisions you have to make.

This influence also brings issues related to legal documents, litigation, and paper work in general. Any legal or bureaucratic problems can be resolved swiftly and smoothly. Any legal cases initiated or judgments requested will probably be solved with comparative ease.

You will be inclined to want to improve the way you look. You may wish to change your hair style or buy new clothes. You may decide to go on a diet or firm up at the gym. Others will probably notice and compliment you on your improvements.

In respect to your health, Libra rules the kidneys and it would be wise to drink a lot of fluids to eliminate the toxins in the system. Under this influence you are inclined to become lazy as far as physical exercise is concerned, which could lead to circulation problems. Besides that, you may develop a sweet tooth during this time.

In spite of your desire for balance and peace, you might find that you attract Aries types who will challenge you to confrontation. Perhaps it is a family member or business associate, who will become very dominant and demanding, creating conflicts and fights. It will up to you to keep the peace!

Solar Return MC Cancer:

This year part of your professional activity could involve the public in some way. Your sensitivities will be stronger than usual, and you could be concerned with improving your social position. You will be more aware of how others see you and might be concerned about blending in with the crowd. You could establish very important personal contacts without even looking for them. You will attract attention with what you are doing, which will result in your receiving special public acclaim. You could also receive some favors from others. You could find it difficult, however, in living up to the expectations of your public. There is also the possibility that your income will not be as steady and regular as it has usually been.

You will find yourself getting in touch with your inner feelings more than usual. It is wise to listen to those inner messages and try to understand what they are saying and then act on it. Have confidence in your own intuition!

Women could have a role to play in your life this year and could have a strong influence on you now. You could be more involved in family matters which could affect you in both positive and negative ways.

You will be involved in getting your own house in order and will seek more stability and tranquility than you have had in the past. You will find that the problems you have can be solved now, thanks to your mature and serious approach to them and to the part your family will play in helping you. You will want to exercise your own authority in achieving the order you long for. If you live alone, you could feel dissatisfied with your solitude and will begin looking around for a companion.

Chapter 2: Astrological influence of your personality.

Sun in 1st house:

Your self-respect, pride and vitality will increase during this year. One of your fundamental goals will be to define your place in the world, and for that you will work with more energy, enthusiasm and authority. If by nature you are a timid person, you will surprise others with your power of decision and your initiative. If you are already a confident, positive person, you will express yourself naturally this year and you will find favorable solutions to your problems.

One of the most important characteristics of this influence is the increase of your will. It gives you the energy to work long and hard in order to achieve your goals. On the negative side, you could become domineering, arrogant, excessively proud and vain. It would be advisable to moderate these attitudes because you could alienate others who would then try to prevent you from accomplishing the things that are important to you. Listen to what your own INNER VOICE tells you when you are in doubt. You will then be true to yourself and will follow the most desirable path for you.

Your vitality will also be very strong. Should a health problem arise, it will be of short duration. If you are already suffering from some illness, the healing process should be fast and effective. It would be advisable to get out into the sunshine whenever possible to replenish your energy.

This influence increases your intuitive judgment and trust in yourself that you can accomplish whatever you set out to do. Set your doubts aside and follow your true desire. Success is in your corner.

Sun conjunction Asc:

You will have a lot of energy during this period and you should be quite healthy. If you do have a health problem, you will recover quite quickly. It is important to get a lot of fresh air and sunshine.

You will be confident, grounded, and able to impress others with your authority at this time. People will respond to you favorably and you will be able to achieve your goals easily. You will express yourself with much frankness, and will expect the same from others. You will be very active and won't wait for others to act first. Your goal will be to express your true self. Unless there are very adverse aspects elsewhere in the chart this year, you will have a successful and satisfying year. However, if there are adverse influences, you will be determined to overcome them, because at this time you will feel very sure of yourself. You will stand up for your natural right to be a leader.

This influence is very positive, and it doesn't matter what your activity or your current situation is. You will progress and fulfill your goals to the end of this cycle. This success will mainly be due to the fact that you will allow no one to control your life or stand in your way.

Sun square MC:

You could meet with obstacles or oppositions in your profession during this year. You will have to work and sacrifice more in order to achieve the position that you desire. Don't get too obsessed with

blaming others though because it could be due, in part, to the fact that you reject the ideas and opinions of others. Due to your negative attitude, your social life could also be affected. You will feel that your objectives are not in tune with others and will insist on doing things your own way. You will probably prefer working alone as much as possible this year so you will not have to deal with opposition from others.

Situations not related to your profession could also be problematical for you. These could be things like disagreements with your partner or business associates, problems in your home life, or your own lack of enthusiasm for and trust in your own projects. It is important that you define your goals and that you work with perseverance to achieve them without letting anything get in your way.

Sun trine Moon:

You will show more enthusiasm and vitality during this year. Your thinking will be very positive and you will want to take the initiative and make decisions that you have not considered before. Your confidence in yourself will be recognized by others and you will receive support from your family and friends in general. It will be easy to carry out the changes that you propose which will benefit you in the future. You also could receive help from powerful or very influential women. Your popularity will increase and you will feel comfortable in your surroundings in spite of any difficulties that you encounter.

Your physical body will be very resistant to any type of illness. If you have some kind of on-going health problem at this time, it is probable that it will be successfully treated during this year. This is mainly due to the fact that you will find it easier to deal with your emotions, thereby putting less stress on your mind and body.

Chapter 3: The emotional world.

Solar Return Moon in Gemini :

Your emotions will be related to the intellect and will be expressed verbally during this year. You will be able to express yourself easily and will be fluent and very effective in transmitting your ideas. Due to your easy communication with others, your popularity and social circle will probably grow. Communication with your family, especially with your mother or other women, will also be very good.

On the emotional side, you will tend to think about your feelings and doubt your own emotional needs. Don't let this attitude dominate you. Concentrate on expressing your emotions as freely and spontaneously as possible. If by nature you are quite demonstrative, this influence will help you to balance and express your emotions appropriately. But if you are not very demonstrative, under this influence you may become even more mental and detached.

Your imagination will be very active and you will have spurts of inspiration that will induce you to write or to speak about your inner world. If you have literary inclinations, it will be a year of much production. This influence also is very favorable for occupations related to journalism, commerce, communications, publications, travel and work related to the public. Your curiosity will also increase and lead you to study about and/or to connect with people different from yourself. You will probably be interested in doing more studying and reading than usual during this year.

On the negative side, this influence could cause you to be more indecisive and less able to concentrate. You will have a stronger tendency to scatter your energies. You will have problems keeping yourself moving toward one specific goal. If you have more than one goal, you will have to establish your priorities.

Solar Return Moon in 9th house:

This year favors the possibility of a long journey to a foreign country, probably with your family or with someone you know intimately. You will feel the desire to visit places of a different culture and to increase your knowledge of the world in general. The decision to travel will be more emotional than logical.

On the other hand, your consciousness and your emotional depth will be expanded. You will need and search for new experiences in scientific as well as philosophical or metaphysical fields. Your general attitude will be more open and liberal. You could also become more interested in pursuing a search for religious or spiritual truths. The practice of meditation or prayer will be very favorable during this time, and you could experience moments of inspiration and illumination.

Moon opposition Jupiter:

You will want to indulge in excesses and extravagant behavior this year. You could be more than usually generous and kind with others, but you will need to be noticed and appreciated for it. This could cause problems. Your judgment won't always be good, and you will have many moments of indecision

and doubt concerning your actions.

You will be less conscientious in handling liabilities and debts and may be careless and forgetful in paying your bills or fulfilling contractual obligations. You may look to others close to you to protect you and help you out of any difficulty. You might also be attracted to games of chance or speculative business opportunities. It is important for you to be fiscally responsible at this time because, if you don't control your tendency to be too casual with money matters, you could experience financial failure or even scandal. Don't neglect any legal obligations at this time. This astrological aspect could bring loss through judgments or litigation, including an unfortunate divorce decree.

Your negligence could also apply to your physical body. Be careful about what you eat and get plenty of exercise. If you don't, you could gain unwanted weight. In general, you will tend to feel happy and carefree and will probably select those kinds of people as friends and companions.

Moon square Uranus:

You will be more edgy and irritable than usual. You will be attracted to unusual ideas and activities. You will be easily bored with your normal routine. You will look for ways to alter your environment and your every-day activities. It's important that you recognize this and take care not to change those things that are still important and necessary in your life.

Your emotions will be very unpredictable during this year. You will find yourself feeling emotions that you don't understand and may not know how to deal with. If you are in a committed relationship, this could be a problem as your partner won't know what to expect from you. If you are involved in a relationship in which there is little excitement or passion, you will feel stifled or blocked. And this could result in your wanting a separation. It would be difficult to begin and maintain a new relationship because you won't be easy to please during this time. On the other hand, this aspect could bring sudden, unexpected, and unusual relationships.

There could also be problems arising in your home environment. It would be better for you to live alone during this time, if that is possible, because you won't be particularly willing to see the other person's point of view or to make any kind of compromise. You also can expect changes in your social circle. In general, relationships will be difficult, especially with women you live with or are associated with.

You should watch your nervous system as well as your digestion. It is important to maintain a light diet that helps the process of digestion during this time, avoiding red meat and fatty or fried foods. Getting regular physical exercise would help to discharge your tensions.

Moon trine Neptune:

You will find your imagination becoming stronger during this time. If your profession involves artistic or creative activity, you will have a year of success and profit. Your sensitivity and your degree of perception will also increase. You will become more intuitive and may have premonitions about the future which will turn out to be right. You should follow the dictates of your inner voice.

You will show an agreeable and caring attitude toward others. It will be relatively easy for you to put yourself in the place of another person and understand their problems, which will result in your becoming more cooperative and sensitive to others. The sensitivity will also extend to your home environment, where you will find that your spiritual ties will strengthen, especially with your mother or other women who are close to you. You will feel the desire to help others, especially those who are more unfortunate than you, and you will be more selfless during this year.

On the other hand, you could be more receptive and more easily influenced than at other times in your life, and it will be important that you surround yourself with positive people. Your emotions will be more intense, and you will be more spiritually oriented. You will search for a closer contact with your divine inner self. You will find that you can benefit greatly through the practice of prayer or meditation.

Your imagination and your pleasures will be more refined. You will feel more romantic and loving, which will lead to relationships which will be based on your ideals and dreams. You will seek out more evolved, spiritual people to relate to during this time and will find more inner peace. You will also be drawn to spend some time near water.

You will want to maintain only those old friendships from the past that you can count on to be there for you. You will treasure quiet moments of solitude and relaxation. You will also find that involvement in group activities will not satisfy you as much as they did in the past and may decide to drop out.

There will be delays and obstacles standing in the way of your realizing some of your desires, hopes, and objectives for this year. But don't be discouraged because if you have done things correctly and thoroughly, you will see the rewards of your efforts toward the end of this solar year. Just have patience and confidence in your future.

Solar Return Saturn Conjunct natal Venus:

Your offer of love could be rejected during this year. You may find it more difficult to express your feelings to others and will therefore tend to hide them and not let them be seen. If you are in a committed relationship, you may not receive the affectionate response you need this year, in spite of your attempt to show your love to the other person. In general, the possibilities for enjoyment and pleasure during this time will be denied because of the responsibilities and duties of your daily life.

HOUSE 12: Limitations, enmities and hidden things.

Solar Return 12th cusp Conjunct natal 8th cusp:

You could become concerned about the illness and possible death of a loved one. Take care not to become too obsessive or involved in your concern. Try to keep a positive outlook on this situation. This influence also could bring difficulties or annoyances due to legal problems over litigation or the receiving of an inheritance.

You could also have experiences related to black magic or other occult sciences. Be very cautious, especially if you are an easily suggestible person.
